

**LEADING
ELECTRONIC COMPONENTS
DISTRIBUTOR IN INDIA**

ABOUT US

Think Semi Infotech is a leading electronic components distribution company. We have 12 years of experience in this field. We have offices in Shenzhen, Hong Kong, Singapore, and India, strategically located to serve clients across the globe.

Think Semi Infotech Private Limited is a company that specializes in distributing electronic components and has been certified with ISO 9001-2015. It is a well-known name in the Indian market and is known for its innovative solutions. Think Semi Infotech Private Limited serves over 1000 customers across all segments and is a leader in the market.

At Think Semi, we understand that in today's fast-paced business environment, time is of the essence. That's why we specialize in providing fast and efficient access to top-quality components at competitive prices.

We cater to clients from a wide range of industries, including automotive, EV, medical, IoT, automation, Telematics, Telcom, Power, Defence and more. Our expertise and experience allow us to provide customized solutions to meet the unique needs of each of our clients, regardless of their industry or application.

As broadline distributors, we offer a one-stop source for all your component needs. Whether you're looking for active or passive components, we have a broad selection of products available to meet your requirements. Our product range includes semiconductors, connectors, passive components, sensors, and more, from the world's leading manufacturers.

Vision

Committed to our mission, become the top choice for both customers and suppliers.

Mission

Our mission at Think Semi Infotech is to streamline the procurement processes for our clients by providing them with fast and efficient access to a wide range of high-quality electronic components at competitive prices.
