

## Company Profile

Established in 1974, Oasis Industrial Corporation has been a leading manufacturer of precision and turned components for industries worldwide. With a strong commitment to quality, on-time delivery, and customer satisfaction, we have earned a reputation as a trusted partner in delivering exceptional products.

Our Certifications:

- ISO 9001:2015: We adhere to the highest quality standards, ensuring consistent excellence in every custom component we manufacture.

- CE Certification for Brass Electrical Terminal: Our products comply with stringent European standards and regulations, guaranteeing reliability and safety.

Our Core Strengths:

1. Collaborative Design and Production Expertise: We understand that effective collaboration and efficient manufacturing processes are vital for the success of your projects. At Oasis Industrial Corporation, we utilize CAD (Computer-Aided Design) tools to brainstorm, design, and prototype customized metal parts. This enables us to provide innovative solutions that meet your exact specifications and maximize manufacturability. Additionally, our expertise includes PPAP (Production Part Approval Process) and thorough manufacturability/feasibility analysis, ensuring seamless integration of our components into your products.

2. Unparalleled Precision: With state-of-the-art facilities and a skilled team, we specialize in manufacturing custom precision and turned components tailored to your exact specifications. We pride ourselves on meeting even the most challenging requirements, enabling you to deliver superior products to your customers. Our machining capabilities range from 2mm to 50mm, and we can manufacture components from a wide range of materials including Brass, Copper, MS, SS, and Aluminum, ensuring we have the right solution for your needs.

3. Robust Manufacturing Capabilities: Our facility is equipped with a range of advanced machinery, including multi-slide automates, rotary transfer machines, cross-hole drilling equipment, special-purpose machines, headers, and CNC machines. These cutting-edge technologies ensure the highest level of precision and efficiency in component manufacturing.

4. Comprehensive Quality Control: At Oasis Industrial Corporation, quality is paramount. We have invested in top-of-the-line quality control equipment and machines, including a 3D vision measuring machine and a profile projector. These tools enable us to conduct rigorous inspections and maintain the strictest quality standards.

5. Customized Solutions for MSMEs: We understand the unique needs and challenges faced by Micro, Small, and Medium Enterprises (MSMEs). That's why we offer tailored solutions to suit your specific requirements and budget constraints. Our collaborative approach and personalized service ensure that we deliver high-quality components while considering the specific needs and limitations of your MSME.

Partner with Oasis Industrial Corporation:

To explore a fruitful partnership, we invite you to contact us for a Request for Quotation (RFQ). Our team of experts will assess your specific component requirements and provide you with a tailored solution to meet your business objectives.
